

Siddharth Polisiti

Barcelona, Spain | +34-613040108 | siddharth.polisiti@gmail.com | [LinkedIn](#)

Professional Summary

Product Leader and Founder with 9+ years of experience spanning full-stack engineering, high-growth consumer product management, and internal AI developer platforms. Proven track record of scaling products from 0 to 1 to millions of users, including driving \$50M in revenue at N26 and launching AI-driven developer productivity solutions. Expert in leveraging AI to solve complex technical and business challenges from AI chatbots to agentic workflows and platform infrastructure. Passionate about shipping fast, product-led growth and building resilient systems that empower both human developers and AI agents.

Experience

Yuki - AI Digital Assistant | Founder

Barcelona, Spain | 02/2026 - Present

- **Built and launched an AI personal assistant** that automatically organizes email, calendars, travel, expenses, subscriptions, reminders, and shared responsibilities for individuals, couples, and families
- **Scaled the product to 3,000 active users** within just two months of launch, handling everything from Product Strategy, UX research, Marketing, FinOps to Full-stack engineering
- **Designed a highly scalable data architecture** to handle real-time state syncing and agentic background workflows. Optimized complex database queries, indexing, and data models to ensure low-latency performance for the end-user.
- **Prioritized rapid MVP delivery** by maintaining tight iteration cycles and keeping infrastructure costs low to ensure fast time-to-market

N26 | Lead Product Manager

Barcelona, Spain | 03/2022 - Present

AI Developer Platform & Developer Productivity (Nov 2024 - Present)

- **Led the 0-to-1 launch of N26's internal AI Developer Platform**, integrating Claude and GitHub Copilot to enhance AI scalability and quality across engineering workflows.

- **Owned the internal MCP Server and Agent Skills:** Built an AI Skills Marketplace (via Model Context Protocol) that allows coding agents to securely interact with internal APIs, giving them the right context and abstractions to actually be useful.
- **Delivered high-impact Agent Skills:** Designed and shipped an automated issue detection, triage, and resolution agent skill that successfully reduced Mean Time To Resolution (MTTR) to under 2 hours.
- **Defined and measured AI Evals:** Set clear evaluation metrics for developer activation and task completion, helping cut idea-to-production time from 20 days to under a week while achieving over 90% adoption of AI tools.

Growth and Engage (Mar 2022 - Nov 2024)

- **Led core product growth initiatives**, designing a personalized and modular home experience that improved feature discoverability for products like Crypto, Trading, and eSIM - ultimately driving ~\$50M in revenue over 4 years
- **Helped scale N26's active users from 1.8M to over 5M** by championing product-led growth and scaling our A/B testing velocity to 50+ experiments per month
- **Optimized the end-to-end onboarding, sign-up, and sign-in conversion funnel**, driving a 30% conversion lift with data backed iterations
- **Aligned engineering, design, and executive leadership** on the roadmap, ensuring cross-functional teams were moving in the same direction

Octo Telematics | Group Product Manager (Smart Home & Hospitality)

Lyon, France | 04/2021 - 01/2022

- Defined product-market fit for B2B2C smart home solutions in the hospitality sector, leading cross-functional teams (Leadership, Sales, CSM & UX) to launch white-label platforms that enhanced security and automated check-ins for the \$100B Holiday rental market. Launched Homebox 2.0, a smart home app for safety, keyless entry, and energy management
- Managed the division's P&L, generating \$12M in revenue over 3 years (~15% of the company total) and grew daily active users by 20% within 6 months

Bank of America | Product Developer (Mobile Banking - AI Chatbot Erica)

Hyderabad, India | 05/2017 - 08/2019

- Built "Erica" AI chatbot that deflected over 20% of incoming customer support tickets in collaboration with cross functional UX, Data and Engineering teams
- Launched the beta to the user base, driving 1M+ sign-ups and validating the core product
- Helped scale the customer support platform for 40M+ users, keeping support costs linear as the user base grew

Prospecta Technologies | Product Lead

Vizag, India | 12/2015 - 05/2017

- Helped grow the company from 15 to 50 employees by introducing core product management practices and a culture of shipping quickly
- Partnered directly with C-level leadership and Customer Success to pivot a custom airline tool into a flexible B2B SaaS product for SMBs, optimizing the Go-To-Market strategy to scale ARR from \$250K to \$5M

CGI | Full Stack Engineer (Team Lead)

Bangalore, India | 04/2013 - 09/2015

- **Developed the Bell Canada e-commerce web app** to drive the discovery and sales of mobile phones, SIM cards, and cellular plans
- **Built core user flows** (registration, purchases, and bill payments) that reliably supported ~8M monthly active users
- **Led technical partner integrations** with major retail networks, including Best Buy and Walmart

Education

- **MBA - Strategy & Digitalization** | Emlyon business school (09/2019 - 10/2020)
- **B.Tech - Electronics and Communication Engineering** | Biju Patnaik University of Technology (09/2008 - 07/2012)

Skills & Tools

- **Product & Strategy:** Agile/Scrum, UX, A/B Testing, Backlog Prioritization, Product Strategy & Roadmap, Market Research, Go-to-Market, Agentic Workflows, MCP (Model Context Protocol), Predictive LTV, Funnel Optimization,
- **AI & Data:** Platforms based on Claude, OpenAI, GitHub Copilot, Data Analytics, SQL, Looker, Metabase, Datadog, Statsig, PostHog, A/B Testing Infrastructure, Data Visualization (Dashboards, Charting), RevenueCat, PostHog
- **Tech Stack & Infrastructure:** Supabase (PostgreSQL, Edge Functions, Auth, S3), Figma, API, IOT, Firebase, AWS, Jira, Confluence, GitHub Actions, Backstage, Terraform, Google Cloud, App & Play store - Product Messaging, ASO & Release management
